## FELT

Wool felt is one of the oldest man-made textiles. A biodegradable and renewable material, wool felt is moisture resistant, self-extinguishing, and known for its thermal and acoustic insulation properties. We employ Filzfelt products which are German-milled, 100% wool manufactured. This Merino wool is sourced primarily from Australia, New Zealand, and South Africa. Slight variation in color is a result of the manufacturing with a natural material.

| MAINTENANCE               | The preferred steps taken for the cleaning process should consist of (in order of intensity): dusting with a lint roller, vacuuming with a clean soft brush, spot cleaning with water and mild detergent, using chemical stain removers. Periodic spot removal of lint can be achieved easily by using a standard tape lint roller. Once per year, it is recommended that the entire surface be given a light vacuum with a soft upholstery brush. Light dusting with a gentle cloth, on hard surfaces, is recommended. Most hard surfaces can take a light application of a natural, neutral-based cleaner, wiped away with a soft cloth. |
