FELT

Wool felt is one of the oldest man-made textiles. A biodegradable and renewable material, wool felt is moisture resistant, self-extinguishing, and known for its thermal and acoustic insulation properties. We employ Filzfelt products which are German-milled, 100% wool manufactured. This Merino wool is sourced primarily from Australia, New Zealand, and South Africa. Slight variation in color is a result of the manufacturing with a natural material.

POWDER COATED FINISHES

RAL colors are used to define standard colors across various powder coated surfaces. The most popular manufacturer of powder coats, RAL colors are used in architecture, construction, industry and road safety. Submaterial uses RAL colors for their consistency in color matching. Below is a curated collection of the numerous colors we offer to powder coat any product using a powder coated surface. Note we cannot guarantee matte or gloss finishes, color matching can be verified using the RAL Colour chart, available online.

COLOR SPECIFICATION	To custom order a product, choose respective color assignments per product specification
INSTALLATION METHOD	French Cleat
PURPOSE	Commercial or Residential Use, Interior Use Only
MAINTENANCE	The preferred steps taken for the cleaning process should consist of (in order of intensity): dusting with a lint roller, vacuuming with a clean soft brush, spot cleaning with water and mild detergent, using chemical stain removers. Periodic spot removal of lint can be achieved easily by using a standard tape lint roller. Once per year, it is recommended that the entire surface be given a light vacuum with a soft upholstery brush. Light dusting with a gentle cloth, on hard surfaces, is recommended. Most hard surfaces can take a light application of a natural, neutral-based cleaner, wiped away with a soft cloth.
LEAD TIME	Products on hand will ship out 2-3 business days and will use client's preferred method of shipping. If no preferred method of shipping is mentioned, ground shipping will be chosen. For custom orders, be in touch with sales for accurate lead times. Lead times depend upon material sourcing.
SUSTAINABILITY	100% Wool Design Felt is 100% biodegradable and Akustika 10 Substrate is 100% recyclable. Contains no formaldehyde, 100% VOC free, no chemical irritants, and free of harmful substances. 100% Wool Design Felt contributes to @LEED certifications. All cork used is sustainably and efficiently sourced from Portugal, 100% VOC free, with no chemical irritants, and free of harmful substances. Ultrasuede is a premier synthetic blend of microfiber, partially using a plant-based polyester.
CUSTOM	For custom inquiries affecting colorways, sizes and quantities in the set contact Sales@submaterial.com.
VARIATION	All products are handmade at our New Mexico studio. Natural variations within the color and material composition are evidence of the handmade and 100% natural origin of the materials. Product colors are only indicative, as it is not possible to assure consistency of color in a natural product due to the natural color of natural materials and absorption of dyes, finishes, and grain. Color matching cannot be guaranteed on shipments and variation will be more pronounced beyond the normal commercial range.
COLORFASTNESS TO LIGHT	Felt, Class 4-5 (40hours)
COLORFASTNESS TO CROCKING	Felt, Class 3-4 (wet), Class 4-5 (dry)
WARRANTY + RETURNS	No warranties are offered on any Submaterial products. Most of our products are made to order, therefore we offer returns or exchanges due to manufacture's defect only. Items must be returned in the original packaging and have no visible signs of wear or use. If you have a concern, please contact us within 3 business days of receipt of your products. Please retain the original packaging and wait for instructions from our sales team.
